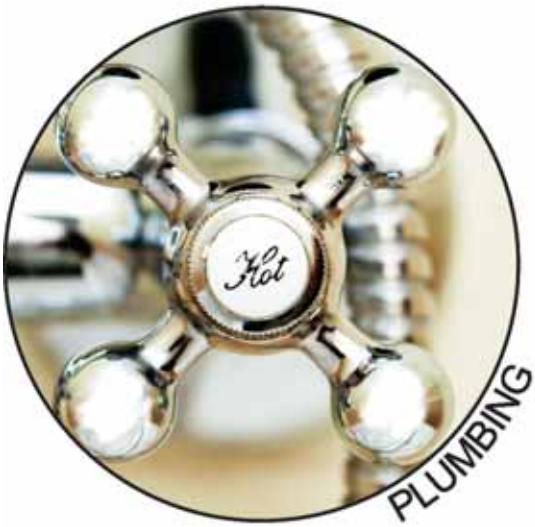
CACHET

VALUE QUALITY RELIABILITY

HARDWARE CATALOGUE

INTRODUCTION



At Cachet, we blend high quality products with excellent value for money. Being an established international wholesale distributor, we aim to provide a reliable service within a variety of markets, in the building and renovation industry. Being a brand that is transparent, timeous and committed, we are passionate about our products and providing reliable product support to our customers. Our SABS compliancy of certain products ensures that standards are always met as we pride ourselves in commitment to quality.

We stock a wide range of products to cater for all your plumbing needs, these include; elegantly crafted taps, mixers, bathroom accessories, fittings, pipes, valves and general plumbing. For your one-stop convenience, we also supply ironmongery, general hardware and gardening products.

CONTENTS

LIVINGSTONE®

A CUT ABOVE THE REST

HOW TO CHOOSE THE RIGHT GENERATOR >>

1. Choose the appliances that you would like to power simultaneously.
2. Record all the running Watts listed for each appliance.
3. Record the additional starting Watts listed for each appliance.
4. Add the starting Watts from the highest starting Watt appliance to the total of the running watts.
5. The total will guide you to select the correct generator model.

DEVICE	RUNNING WATTAGE	START UP WATTAGE
1 x GLOBE	60W	60W
TELEVISION	300W	300W
MICROWAVE	1000W	1000W
REFRIGERATOR	1000W	3000W
	2360W +	3000W
TOTAL	5360W	

Know your consumption and choose your solution with Gentech Power generators!

SELECT YOUR ITEM / WATTS

1000 W = 1 kW

MODEL	ITEM SELECTION	CALCULATION	RUNNING WATTAGE	START UP WATTAGE	REQUIRED WATTAGE
2.2 kVA / 2200 W		300W +50W +1000W +40W = 1390W	1390 WATTS	695 WATTS	2085 WATTS
3.5 kVA / 3500 W		600W (300 x 2) +50W +20W +1000W +100W +80W = 1850W	1850 WATTS	925 WATTS	2775 WATTS
5.5 kVA / 5500 W		600W (300 x 2) +50W +20W +100W +1000W +1000W +80W = 2850W	2850 WATTS	1425 WATTS	4275 WATTS
7.5 kVA / 7500 W		600W (300 x 2) + 50W + 20W + 100W + 1000W + 1000W + 1000W + 800W + 80W = 4650W	4650 WATTS	2325 WATTS	6975 WATTS

This chart is to illustrate how to calculate your total electricity consumption by adding the highest startup wattage to the combined amount of running wattage. Rather select the next model up as fluctuation in electrical current caused by large appliances such as washing machines, can cause spikes that can be harmful to your appliances and generator set. Check your wattage consumption on the back of your electrical appliance. Please ensure that the instruction booklet or user guide provided in the packaging are well read, understood & adhered to!
